Brainstorming

1. Battletech Range Calculator
   a. Something to simplify the calculations of G.A.T.O.R for battletech
2. Warhammer hit/damage calculator
   a. Something to calculate hits in Warhammer
3. Warhammer Roster builder
   a. Something to take note on army rosters for warhammer

Purpose Statement

The Battletech G.A.T.O.R calculator is being made to lessen the burden on players remembering rules by calculating for them. This is made for new players to help them get used to the game without having to take on the full brunt of the rules.

Research

1. How many rules there are in wargaming books
   a. https://www.battletech.com/downloads/CBT-Quick-Start-Rules.pdf
2. My own struggles with personally calculating it
   a. Personal experience
3. Peoples experience playing other wargames and learning \
   a. https://boardgamegeek.com/thread/832195/advice-learning-complex-wargames
